# Roman Datsiuk
Senior Front End Developer
Lviv, Ukraine, romandatsyuk@gmail.com, https://romandatsiuk.com/en

## Profile

I have been working as a software developer for more than 10 years in healthcare, real estate, social and media. I consider myself a loyal, hard-working person, who is motivated by challenging problems and a nice working environment. I believe all developers should follow the KISS principle.

**As for team management**, I have experience working as an FE Team Lead in a large team (up to 6 FE developers in the team).

**As for development**, I engaged in various tasks on projects: page design, preparing architecture for new projects, existing codebase support, new features development, fixing bugs, writing tests, and making POCs. Mainly, I like React(Next)/Redux/RTK-query stack.

**As for client communication**, I have been working directly with clients on some projects and had communication regarding planning, features, and problem-solving on other projects.

## Education

National University of Water Management and Nature Resources Use
**Master's degree in Applied Mathematics**
2007 - 2012
https://nuwm.edu.ua/
